Will County Center for Community Concerns	Will	815.722.0722

Nicor Gas Energy Efficiency Program

Low-to-Moderate Income Program

Energy efficiency improvements for your home

Comfort. Safety. Energy efficiency.

Don't qualify for the Illinois Home Weatherization Assistance Program? The Nicor Gas Energy Efficiency Program could have an option for you.

The Nicor Gas Energy Efficiency Program (EEP) helps qualified homeowners improve the energy efficiency of their homes at minimal cost. Now you can feel more comfortable in your home and enjoy peace of mind knowing you're taking care of your investment.

HOW DOES THE PROGRAM WORK?

Qualifying customers receive a no-cost, no obligation home energy evaluation to determine the energy efficiency improvements that need to be made. As part of the evaluation, a local program provider will perform a series of diagnostic tests to detect insufficient insulation levels and make sure your heating system is operating properly and safely.

Following the energy evaluation, you will receive an estimate detailing the energy efficiency improvements to be made. Participating homeowners are asked to pay 10 percent of the total weatherization costs and 20 percent of the furnace repair or replacement costs; Nicor Gas EEP will fund the remaining cost of your home's energy efficiency improvements.

WHAT IMPROVEMENTS MAY BE MADE?

Depending on the results of the home energy evaluation, your home may receive one or more of the following energy efficiency improvements:

Insulation. Adding insulation to the attic, walls, and crawlspaces helps reduce energy use and increase comfort.

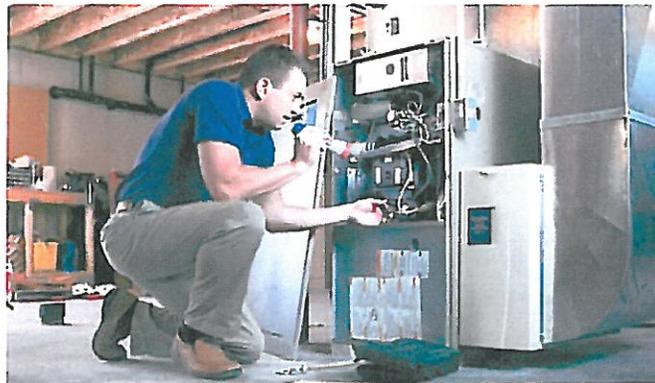

Sealing air leaks. Sealing air leaks will reduce the cold drafts caused by unwanted holes in the home's structure and may improve indoor air quality.

Energy saving products. Installing a high-efficiency shower head and faucet aerators saves energy.

Furnace replacements. Replacing or repairing an inefficient furnace will save energy and reduce energy costs.

WHO IS ELIGIBLE?

Nicor Gas customers who own single-family homes or duplexes in the counties with participating Community Action Agencies, and who meet the income requirements are eligible to participate. To find out if you qualify, review the income eligibility chart in the next column and the list of participating Community Action Agencies on the back of this brochure.

INCOME ELIGIBILITY CHART

Homeowners must have a household income between 201 percent and 300 percent of the federal poverty guidelines, as verified by the local Community Action Agency, and your household income should fall within this range:

How many in your household?	Annual Income	
	Minimum	Maximum
1	\$21,768	\$32,490
2	\$29,268	\$43,710
3	\$36,803	\$54,930
4	\$44,321	\$66,150
5	\$51,838	\$77,370
6	\$59,355	\$88,590
7	\$66,873	\$99,810
8	\$74,390	\$111,030

If your household includes more than eight people, please call your local Community Action Agency for income eligibility guidelines. If you do not qualify for the Low-to-Moderate Income Program, call 877.886.4239 or visit nicorgasrebates.com to learn about other ways to save energy and money with the Nicor Gas Energy Efficiency Program.

HOW DO I APPLY?

To apply for the Nicor Gas EEP Low-to-Moderate Income Program, please call the local Community Action Agency in your county of residence. Contact information for the various agencies can be found on the back of this brochure. Program funds are limited, so act today!
