However, the City may choose to award on a per item basis. Therefore, each bidder must submit pricing for each item indicated on the bid forms. Bidders must clearly indicate which items are bid and which are not.
3. Delivery of Merchandise. Delivery terms will always be Freight On Board (FOB)—Destination. The City of Rockford accepts no responsibility for the condition of any merchandise purchased prior to acceptance by City Personnel. With respect to the awarded vendor's own work, the City shall not have contractual, operational, and/or supervisory control over and/or charge of the work and shall not be responsible for construction means, methods, techniques, sequences, procedures, and programs in connection with the awarded vendor's work, since these are solely the vendor's responsibility under the agreement. The City shall not be responsible for the awarded vendor's failure to carry out the work in accordance with the agreement's terms and conditions. The City shall not have control over and/or charge of acts or omissions of the awarded vendor, its subcontractors, and/or their agents or employees, or any other person performing portions of the work not directly employed by the awarded vendor. **Illinois Department
of Transportation**

Special Provisions

The following Special Provisions supplement the "Standard Specifications for Road and Bridge Construction", Adopted **January 1, 2012**, the latest edition of the "Manual on Uniform Traffic Control Devices for Streets and Highways", and the "Manual of Test Procedures of Materials" in effect on the date of invitation of bids, and the Supplemental Specifications and Recurring Special Provisions indicated on the Check Sheet included here in which apply to and govern the construction of **City-Wide Pavement Marking- 2015**, and in case of conflict with any part, or parts, of said Specifications, the said Special Provisions shall take precedence and shall govern.

The "Standard Specifications for Road and Bridge Construction" prepared by the Department of Transportation of the State of Illinois and adopted by said Department on January 1, 2012, shall govern the bidding, construction and execution of the proposed project. Where the term "Department" appears in the Specifications, the "City of Rockford" shall be substituted therefore, and where any term for an employee of the Department is used, the designated City of Rockford employee shall be substituted therefore. City of Rockford Water Division Specifications - Revised, dated November 29, 2011, and the General Provisions and Technical Specifications for Sanitary Sewer Construction in the Rock River Water Reclamation District dated October 24, 1983, and all standards and revisions adopted by the Board of Trustees for said Rock River Water Reclamation District shall also apply to this improvement where appropriate. Style, type and grade of all materials used for construction shall be approved by the City of Rockford Public Works Department, City of Rockford Water Division and Rock River Water Reclamation District prior to bidding, ordering or placing any materials.

Herein after the terms "Owner", "Ownership", "City", "Engineer", or any derivatives of such shall mean the City of Rockford or its designated representative and the term "Contractor" shall mean the entity who proposes to perform the work herein described or its designated subcontractors.

The following Special Provisions supplement the said specifications and, in case of conflict with any part or parts of said specifications, these Special Provisions shall take precedence and shall govern:

SECTION 1 – GENERAL PROVISIONS

1.1 DESCRIPTION OF WORK.

The City of Rockford requests bids from qualified companies to provide all labor, materials, equipment, and supplies necessary for the **City-Wide Pavement Marking 2015** project, as described in these specifications. The work consists of pavement marking removal and the application of thermoplastic and epoxy pavement markings on various streets throughout the City of Rockford, as detailed on the schedule herein.

1.2 CONSTRUCTION INSPECTION

Any work performed without the presence of an Owner's designated representative to inspect said construction shall not be accepted for payment as directed by the Owner. Contractor shall notify Ownership a minimum of 24 hours in advance of the start of construction or the continuation of construction following a pause in work.

City representatives shall only be available between 7:30 am and 3:30 pm on weekdays. Inspectors will not be available on Saturdays, Sundays and official City of Rockford holidays. Except for work required to maintain warning lights, barricades and other safety/health-related systems, no work shall be performed on Saturdays, Sundays, legal holidays, or between 3:30 p.m. and 7:30 a.m. on other days without specific permission of the Owner. Additionally, no work will be allowed in certain areas of the project on days as specified by the City of Rockford.

Owner will provide services as needed for construction observation/inspection between the hours of 7:30 a.m. and 3:30 p.m., Monday through Friday, except for official City of Rockford holidays. Should the Contractor work outside these hours whether by his choice or in response to an emergency situation, Contractor shall pay for excess observation time at a rate of \$70.00 per hour per inspector for the number of construction observation/inspection hours expended by the Owner's designated representatives. The applicability of this excess engineering cost shall be determined on the basis of the representative's work hours expended **in each individual day** and shall not be predicated upon Contractor's work hours on preceding days or the Contractor's proposed schedule for completing the Project. Moneys due the Owner for excess engineering shall be deducted from the project's final application for payment.

1.5 FAILURE TO COMPLETE WORK ON TIME.

The Schedule of Deductions for Each Day of Overrun in Contract Time shall be according to Section 108.09 of the IDOT Standard Specifications.

1.6 VENDOR QUALIFICATIONS.

All work shall be done in a workmanlike manner, in compliance with all Local, State and Federal codes applicable thereto, and said work shall be performed by workmen certified, trained and skilled in the craft involved.

1.7 EXAMINATION OF THE PROJECT SITE.

Bidders should carefully examine the project site(s), to eliminate misconceptions, verify dimensions and working conditions. Bidders should give due consideration to same in preparing their proposals as no exceptions will be considered after awarding the contract; nor will the contractor be entitled to any extra compensation for their failure to verify conditions at the site.

1.8 PROTECTION OF PERSONS AND PROPERTY.

The Contractor shall assume and bear all risk of damage to the work, and all risk of any accident(s), from whatsoever cause arising, until the work herein provided for shall be fully completed and accepted by the City.

Any damage to property outside of what has been asked in these specifications shall be restored to its original state or as directed by the Engineer, at the Contractor's expense.

1.9 WORK IN RIGHT OF WAY.

All work in the public right of way shall be done in accordance with Chapter 26 of the City of Rockford Code of Ordinances.

1.10 SITE SUPERINTENDENT.

The Contractor shall have a competent superintendent on the site at all times that work is in progress with full authority to act for them.

1.11 MOBILIZATION.

Refer to Article 671.02 of the Standard Specifications and delete this paragraph in its entirety. There shall be no mobilization payments made on this Project.

1.12 FINAL INSPECTION & ACCEPTANCE.

The contractor shall notify the engineer when work is considered to be completed and ready for final inspection.

1.13 MAINTENANCE OF TRAFFIC.

The contractor shall provide traffic control for the convenience and protection of vehicular and pedestrian traffic. The presence of temporary traffic control drawings or standards in the specifications does not relieve the contractor of his obligation to provide protection to the public in accordance with Article 107.14 of the Standard Specifications. This Article stipulates that the contractor shall provide, to the satisfaction of the engineer, all

protection deemed necessary beyond that shown in the plans or special provisions. Access to commercial or private driveways shall be included in the various bid items and no extra compensation will be allowed.

1.14 THERMOPLASTIC INSTALLATION.

Prior to applying the thermoplastic pavement on those locations where the existing pavement marking removal is not needed, the use of thermoplastic primer is required.

1.15 SHARED LANE MARKINGS & BIKE LANE SYMBOLS.

Shared Lane Markings (Sharrows) shall be per Figure 9C-9 of the Manual on Uniform Traffic Control Devices for Streets and Highways (MUTCD), 2009 Editions. Bike Lane Symbols shall be per Figure 9C-3 Option A of MUTCD, 2009 Edition. Both bike lane symbols and sharrow markings material shall be of preformed thermoplastic per applicable sections of the IDOT standards specification. On a street with on-street parallel parking, Sharrow markings shall be placed so that the centers of the markings are at least 11 feet from the face of the curb, or from the edge of the pavement where there is no curb. On a street without on-street parking that has an outside travel lane that is less than 14 feet wide, the centers of the Shared Lane Markings shall be at least 4 feet from the face of the curb, or from the edge of the pavement where there is no curb. The Shared Lane Marking should be placed immediately after an intersection and spaced at intervals not greater than 250 feet thereafter. The contractor shall be required to provide a layout defining the location of all sharrow markings for approval by the City. After review and approval by the City, the contractor may proceed with installation of the markings.

**SPECIAL PROVISION
FOR
PARTIAL PAYMENTS**

Effective: January 1, 2007

Add the following after the first paragraph of Article 109.07(a) of the Standard Specifications:

“The State will deduct from the amount so determined for the first 50 percent of the completed work a sum of ten percent to be retained until after the completion of the entire work to the satisfaction of the Engineer. After 50 percent or more of the work is completed, the Engineer may, at his/her discretion, certify the remaining partial payments without any further retention, provided that satisfactory progress is being made, and provided that the amount retained is not less than five percent of the total adjusted contract price. When the principal items of the work have been satisfactorily completed, a semi-final estimate may be made with the consent of the surety. Payment to the Contractor under such an estimate shall not exceed 90 percent of the amount retained after making partial payments, but in no event shall the amount retained after making the semi-final payment be less than one percent of the adjusted contract price, nor less than \$500.00.

When any payment is made directly to the State, payments for completed work shall have deducted the proportionate share of the cost to be borne by the State. The deduction will be the estimated cost to the State divided by the awarded contract value with this percentage applied to the value of work in place. Any adjustment to be made because of changed quantities will be made when the final payment is being processed. No retainage will be held from the value of such payments.”

Explanations**WINNEBAGO COUNTY**

The following list is considered as those days for which holiday rates of wages for work performed apply: New Years Day, Memorial Day, Fourth of July, Labor Day, Thanksgiving Day, Christmas Day and Veterans Day in some classifications/counties. Generally, any of these holidays which fall on a Sunday is celebrated on the following Monday. This then makes work performed on that Monday payable at the appropriate overtime rate for holiday pay. Common practice in a given local may alter certain days of celebration. If in doubt, please check with IDOL.
