Dixon, IL – The Illinois Department of Transportation announces the following update to the construction work to replace the bridges carrying Bypass US 20 over the Rock River on the south side of Rockford. Both lanes on the bridges carrying westbound traffic will be open on Tuesday, November 3, 2015.

The structures carrying eastbound traffic will remain restricted to one lane to allow for completion of guardrail and painting on the eastbound lanes. Weather permitting, all work will be completed and all eastbound lanes open by Saturday, November 14, 2015.

Civil Constructors is the contractor for the \$20.8 million project. The two eastbound US 20 bridges were replaced during the 2014 construction season and the two westbound bridges were replaced during 2015.

Please slow down and use extreme caution while driving through all work zones.
