### **LANE CLOSURES**

#### **SPRING CREEK RD. BETWEEN N. 2<sup>ND</sup> ST AND ALPINE RD.**

Rockford – Effective September 19, 2016

On Monday, September 19, 2016, construction of the Spring Creek Sewer Replacement project will begin. This project will consist of installing new sanitary sewer along Spring Creek Road from the N. 2<sup>nd</sup> Street on-ramp through Alpine Road – closure of the northerly west-bound lanes of Spring Creek Road will be required. One-lane traffic will remain open in each direction through construction zones, however. Initial construction will take place at the N. 2<sup>nd</sup> Street on-ramp and is expected to last three to four weeks. Traffic restrictions along the overall project corridor are expected to last through late 2017. Typical daily construction hours will occur between 7:00 a.m. and 6:00 p.m.

The motoring public is encouraged to begin their commutes earlier to ensure their destinations are reached on time or consider using an alternate route. Motorists are further advised to be alert for on-going changes in traffic patterns and to exercise extreme caution when driving through construction zones to ensure worker safety.

The Rock River Water Reclamation District Engineering Department may be contacted at 815.387.7660 for further information.
