### *North Main & Auburn Street Roundabout Project*

It is anticipated that Thursday August 8<sup>th</sup> a traffic lane shift will occur on North Main Street north of Auburn Street moving traffic from the west lanes to the east lanes. A traffic lane shift will also occur on Auburn Street moving traffic from the south lanes to the north lanes. At the same time, Vernon Street and Yonge Street at the North Main intersections only will be closed. Please note that King Street at the North Main Street intersection will remain closed and Myott Avenue at the North Main Street intersection will remain open (right-in and right-out only). No access from or to North Main will be permitted from Vernon Street, Yonge Street, and King Street.

Drivers are reminded that no turns are allowed at the North Main and Auburn Street intersection.

Businesses are open during construction and the public parking lots are accessible. The public parking lots are located off of Toner Avenue and Latham Pl. Drivers are encouraged to utilize Sheridan St. and Boilvin Ave to access the public parking lot at the southeast corner of the N. Main Street and Auburn Street intersection, and Reynolds Street and Church Street for the parking lot at the southwest corner of the N. Main Street and Auburn Street intersection.

Drivers are encouraged to consider alternate routes during the project construction. Drivers are also reminded to obey work zone speed limits and to stay alert for workers when driving through the construction zone.

The City of Rockford appreciates your patience and cooperation during this project.

Questions regarding this project should be directed to Jamie Rott in the Public Works Department at (815) 967-6742. Thank you for your consideration.
