Whitman Street Bridge – Fence Installation

On Monday September 26, 2016 work will begin to install fencing on the Whitman Street Bridge. The fencing will be mounted on the north and south parapet walls, between the Rock River and North Madison Street. The bridge will remain open to traffic as the work will occur under lane closures; motorists are advised to use caution when driving through the work zone. It is anticipated that all work will be completed by Friday September 30, 2016.
