CIP UPDATE

MORGAN STREET BRIDGE RECONSTRUCTION

The Morgan Street bridge has closed for the replacement of a complete new bridge. Some preliminary work is being completed before the start of the new water main and demolition of the bridge. The limits of construction over the duration of the project are along College Avenue/Morgan Street from Kishwaukee Street to South Main Street. The improvements on the project include replacement of the Morgan Street Bridge new water main, storm sewer, some sanitary improvements. New roadway curb and gutter sidewalks recreational path and a roundabout at the intersection of College Avenue and Seminary Street. All residents and businesses will be able to maintain access during construction. Please use extreme caution while traveling within the construction limits. There will be a signed detour set up for those who normally use the bridge. The detour route if you are traveling east on Morgan Street is south on South Main Street, east to 15th Avenue and north on Kishwaukee Street. The detour route if you are travelling west on 5th Avenue/ College Avenue is Kishwaukee Street south to 15th Avenue north to Kishwaukee Street. The project contract completion will be on December 23, 2013.

For questions concerning these projects, please contact Martin Ruvolo at 815-961-3772.
