West State Street Linear Park Design Workshop / Community Fair

Rockford, IL – July 8, 2010 - A follow-up Design Workshop for the West State Street Linear Park Project will be conducted on Saturday, July 10, 2010, noon to 4:00 p.m., at Fire Station # 6, 3329 West State Street, Rockford, Illinois.

The Design Workshop will present concept plans and gather comments for the linear park improvements along the West State Street Corridor.

You are invited to attend the Design Workshop to engage in the stakeholder planning process for this project. Members from Terry Guen Design Associates, Rockford Park District, and the City of Rockford will be present to conduct the Design Workshop. The community is invited to attend and provide review and comment on the proposed plans for the project.

In addition to the Design Workshop, a community fair will take place at the workshop location with informational booths from organizations including the Rockford Park District, Rockford Mass Transit District, Crusader Community Health, Neighborhood Network, and various departments from the City of Rockford.

Your participation is important. Please plan on attending and pass this information along to others that may be interested.
