These figures are based on the 2025 Federal Poverty Guidelines (FPG) published in the U.S. Department of Health and Human Services in the Federal Register/Volume 90/Number 11/January 17, 2025. Given that HHS allows 150% of FPG or 60% of State Median Income (SMI), where 150% of FPG is lower than 60% of SMI the program will be using 60% of SMI as our highest category. For households larger than 12 members, the 150% will be set as the maximum income eligibility criteria. The state reserves the right to adjust these levels based on the availability of federal appropriations.
