

Popular Annual Financial Report **2024**

I am happy to present the city's Popular Annual Financial Report (PAFR). The PAFR is a summarized version of important elements of the city's official financial statements, the Annual Comprehensive Financial Report (ACFR). The ACFR is compliant with generally accepted accounting principles and is available on the City's website.

For those without experience with financial statements, the full ACFR can be challenging to read and get a clear picture of the City's financial condition.

The PAFR is specifically designed to convey information about major aspects of the City's financial condition that may be of interest to citizens of Rockford.

We hope that this document gives you a feel for the City's finances, and if you should have any questions, please don't hesitate to contact the Finance Department.

Thank you

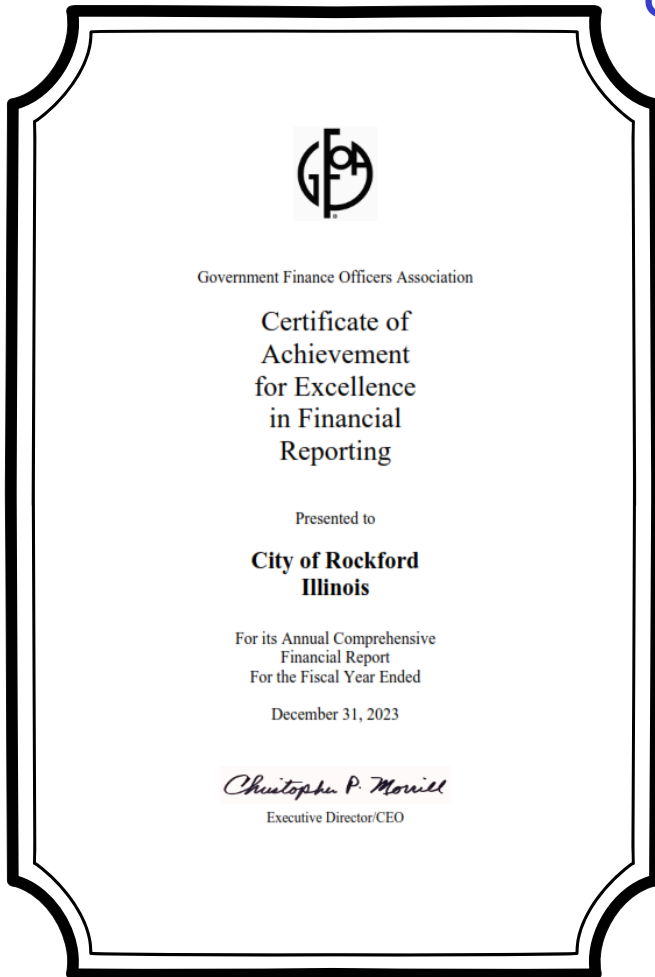

CITYFACTS

City of Rockford

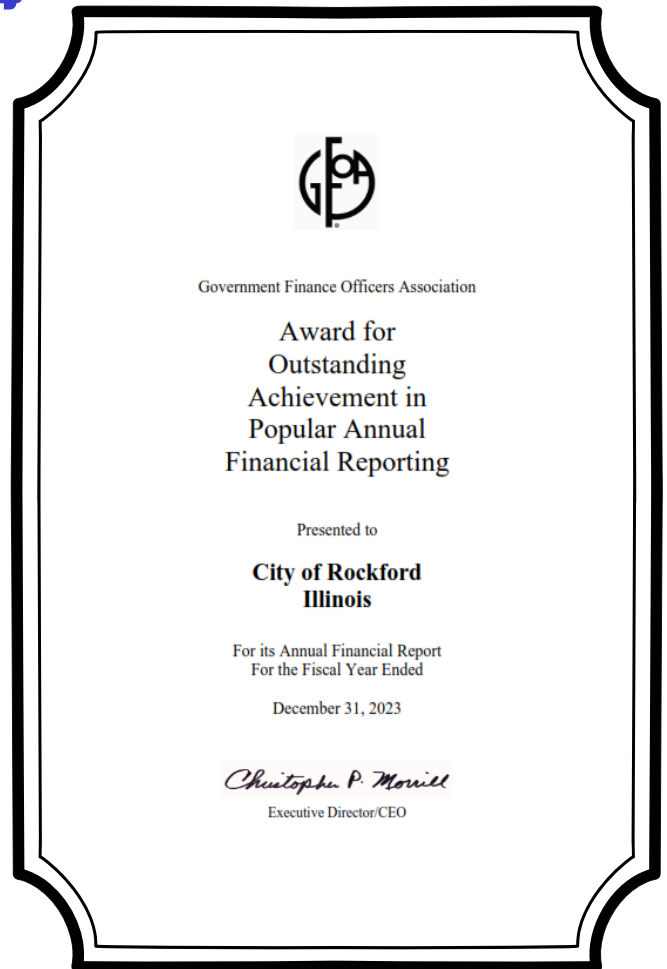

GFOA Financial Awards

The Government Finance Officers Association (GFOA) conferred an Award for Outstanding Achievement in Popular Annual Financial Reporting (PAFR) to the City of Rockford. The City was also recognized by GFOA for a Certificate of Achievement in Excellence in Financial Reporting (COA) for the Annual Comprehensive Financial Report where all the PAFR financial information is derived. These awards recognize and acknowledge conformance with the highest standards for the preparation of state and local government reports.

For more information on these awards, please visit <https://www.gfoa.org/awards> or click this QR:

City of Rockford Government Organization

Mayor and City Council

Mayor Thomas McNamara

The City of Rockford has an Aldermanic-City form of government which consists of 14 Alderpersons, a Mayor and an appointed City Administrator. The Alderpersons and Mayor are elected officials who serve four year terms on the City Council. The City of Rockford is divided into 14 wards.

City Council is responsible for establishing policy, passing ordinances, adopting the budget, and appropriate funds and present initiatives to best represent the needs of both their respective constituents and the City of Rockford as a whole.

The Mayor, with assistance from the City Administrator, is responsible for carrying out the policies and ordinances of the City Council and overseeing the day-to-day operations of the City. City services are provided by 9 City Departments: Community and Economic Development, Fire, Police, Finance, Health and Human Services, Legal, Human Resources, Information Technology, and Public Works.

To the Citizens

of the City of Rockford

We are proud to present the City of Rockford's Popular Annual Financial Report (PAFR) for the fiscal year ended December 31, 2024. This report gives readers a summary of the City's financial activities. The purpose of the PAFR is to report the City's financial information in a clear, concise manner giving all readers, both financial and non-financial, an understanding of where the revenue comes from and where dollars are being spent. Most importantly, it is essential that our citizens understand the key services that the City provides to make the City of Rockford a safer and more enjoyable place in which to work, live, and play.

The PAFR summarizes the financial activities of the City for our fiscal year which runs from January 1 to December 31. It is drawn from a more detailed report called the Annual Comprehensive Financial Report (ACFR). The ACFR includes financial statements that are prepared in accordance with Generally Accepted Accounting Principles (GAAP) and audited by Baker Tilly, an independent auditing firm. The 2024 ACFR has two main restatements: 1) the Library has been restated per GASB 61 as a Component Unit of the City financials and 2) the Police and Fire Pension funds were restated to record the property tax receivable and recognize revenue that align with GASB 33. The numbers contained within the ACFR were acquired by applying the basis of accounting principles as prescribed by the Governmental Accounting Standards Board (GASB).

Although the numbers used in the PAFR come from an audited source, we have presented them in a condensed, easy to understand, non-GAAP format. GAAP reports deal with the presentation of segregated funds as well as full disclosure of all material financial and nonfinancial events in notes to the financial statements, while non-GAAP reports do not contain such notes. Citizens who wish to review audited GAAP basis financial statements can refer to the City of Rockford ACFR, which is available from the Finance Department or on the City's website at rockfordil.gov.

As a municipality, we want to continue to promote awareness, accountability, and transparency of the City's financial information. We anticipate that after reading the PAFR, community members will be reassured that public dollars are being used to build a better, safer, and stronger City of Rockford. With the help of all departments, the City, in 2024 has accomplished many goals. All these positive achievements have helped to increase growth and success in our City. We look forward to the future and growth of the City.

We are honored to serve the citizens of the City of Rockford and hope you enjoy reviewing the 2024 PAFR. We welcome any input, questions, and comments you may have regarding this report. You may contact the Finance Department at 779-348-7470.

The City's Finances

Accounting for Financial Activities

Fund Accounting Structure – The accounts of the City are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate self-balancing set of accounts that comprise its assets, liabilities, fund equity, revenues and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

The City has three types of funds: Governmental funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources at the end of the fiscal year. Consequently, the governmental fund statements provide a short-term view and help determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs.

The City maintains ten individual governmental funds of which six are considered major funds. Information is presented separately for the City's major funds in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances. The General Fund, Community Development Fund, Human Services Fund, Tax Increment Financing Fund, Debt Service Fund, and Capital Projects Fund are considered the City's major funds.

Proprietary funds - Services for which the City charges customers a fee are generally reported in proprietary funds. The City maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented ad hoc business-type activities in the government-wide financial statements, only in more detail. The City uses enterprise funds to account for its Water Utility Fund and its Parking System Fund, both of which are considered to be major funds of the City. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for its fleet of vehicles, building maintenance, management information system, health system, 911 communications, and services for the City's other programs and services. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Fiduciary funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The City has two fiduciary funds, the police pension and firefighters' pension funds. The City is the trustee for these pensions and it is also responsible for ensuring that the assets reported in these funds are used only for their intended purposes.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the finances of the City in a manner similar to a private-sector business. The statement of net position presents information on all of the City's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference reported as net position. Net Position measures the net financial resources available as a result of City operations to pay expenditures in future periods. Rating agencies examine net positions when considering the overall economic health and creditworthiness of the City. Net position here means the balance of governmental funds calculated in accordance with generally accepted accounting principles.

Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. With total assets and deferred outflows of \$987.6 million and total liabilities and deferred inflows of \$847.3 million, the City's total net position was \$140.4 million at December 31, 2024. This is a decrease of \$87.1 million as was expected as the majority of the decrease was previous years' surplus funds being programmed for various projects. Approximately \$468.4 million represents the City's net investment in capital assets, \$37.7 million was held for restricted purposes and (\$365.7) million is classified as unrestricted.

Restatement	(6,474,726)	
Fund balances - ending	\$69,721,732	\$127,463,373

The General Fund is the chief operating fund of the City.

Revenues are primarily derived from general property taxes, charges for services, fines, licenses and permits, and State and Federal Sources.

Expenditures are primarily related to general administration, police and fire protection, street inspection and maintenance, building inspection, and planning and zoning.

The General Fund's unassigned fund balance at year end was \$69.7 million, or 33.5% of total General Fund Balance. This is a decrease of \$51.3 million from the prior year and is primarily due to the restatement of the Rockford Public Library as a component unit and surplus funds being programmed for various projects.

Enterprise Funds are used to record the City's business type activities. The City's enterprise funds are the Water Utility fund and the Parking system fund.

The Water fund is used to account for the provision of water services to residents.

The Parking fund is used to provide ample parking for the business districts within the City.

These funds are designed to be self-sustaining deriving revenue from customer fees. These fees supply the necessary funds to allow the water and parking funds to remain financially independent and also allow for some capital investments to provide and maintain the City's water utility and parking system.

Enterprise Fund Revenue

Enterprise Fund Expenses

Government-wide

All general obligation notes and bonds payable are backed by the full faith and credit of the City. The chart below illustrates the City's total outstanding debt service and how it can be expected to change over time. Should the City not issue any more debt, the City's general obligation would be completely paid off by the year 2039. As a non-home rule government, under Illinois law, the City is limited in issuing debt. Moody's Investor Service has issued the City of Rockford a bond rating of AAA.

The State imposes a legal limit of 8.625% of total equalized assessed valuation on the amount of general bond indebtedness. The City further limits their indebtedness, by ordinance, to 80.0% of the State limit. As of December 31, 2024, the City's indebtedness was \$167.2 million less than the City limit and \$212.3 million less than the State limit.

Long Term Debt Obligations (in 000s)

What Improvements are happening around Rockford?

City-Wide Capital Improvements are funded by three main sources: the 1% Infrastructure Sales Tax, Motor Fuel Tax, and the Capital General Fund. To find out more visit the City's website at www.rockfordil.gov or scan this QR code where you can find an infrastructure interactive map.

Pension Benefits

The City contributes to three defined benefit pension plans: The Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer public employee retirement system; the Police Pension Plan, a single-employer pension plan; and the Firefighters' Pension, also a single-employer pension plan. The benefits, benefit levels, employee contributions and employer contributions for all three plans are governed by Illinois Compiled Statutes (ILCS) and can only be amended by the Illinois General Assembly.

All employees (other than those covered by the Police Pension and Firefighters' Pension Plan) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. Participating members are required to contribute 4.50% of their annual gross salary to IMRF. The City is required to contribute the remaining amounts necessary to fund IMRF as specified by statute. The City's actuarially determined contribution rate for the fiscal year ended December 31, 2024 was 5.98% of covered payroll.

The City's sworn police personnel are enrolled in the Police Pension Plan as participating members and contribute 9.91% of their base salary to the Police Pension Plan. The City's sworn fire personnel are enrolled in the Firefighters' Pension Plan as participating members and contribute 9.455% of their base salary to the Firefighters' Pension Plan.

The City is required to contribute the remaining amounts necessary to finance the Plans and the administrative costs as actuarially determined by an enrolled actuary. ILCS requires the City to contribute a minimum amount annually calculated using an entry age normal actuarial cost method that will result in the funding of 90% of the past service cost by the year 2040.

- For the year-ended December 31, 2024, the City's contribution to the Police Pension Fund was 52.13% of covered payroll. The unfunded net pension liability at December 31, 2024 measures \$233 million and the fund was 49.54% funded.
- For the year-ended December 31, 2024, the City's contribution to the Fire Pension Fund was 59.14% of covered payroll. The unfunded net pension liability at December 31, 2024 measures \$257 million and the fund was 41.8% funded.

Executed Summary

Reported as of December 31, 2024
