# Introduction

Presented in these pages is the City of Rockford's Fiscal Year 2026-2030 Capital Improvement Program (CIP), a comprehensive program of infrastructure reinvestment and maintenance throughout the City. The CIP's mission is to identify, engineer, and implement projects that will enhance public safety, maintain and improve the movement of commerce and economic activity throughout the City, promote a sense of well-being for the community as a whole, and maintain a safe, adequate, and reliable potable water supply to customers.

Areas of emphasis in this program include the programming of regular maintenance activities to economically prolong the life of our infrastructure, targeted repairs to our highway structures, improvement of our stormwater system, continued investment into neighborhood and arterial streets, enhancement of our City-wide pedestrian and bicycle accommodations, strategic water main replacement, and well facility enhancements.

The CIP is divided into the City-Wide Capital Improvements and the Water Capital Improvements and is overseen by the City of Rockford Public Works Department. The City-Wide Capital Improvements are funded by three main sources: the 1% Infrastructure Sales Tax approved by voters through a five-year referendum, Motor Fuel Tax, and the Capital General Fund. The Water Capital Improvements main source of funding is the fund equity collected from customer billing, also known as Water Replacement and Improvement Account (WRIA). Both programs utilize the funds to leverage external grants, as well as State and Federal funding awards. This document is intended to communicate to the citizens of Rockford where the tax funds and user fees they have entrusted to the City are being directed.

CAPITAL IMPROVEMENT PROGRAM

2026-2030

# 2026-2030 CAPITAL INVESTMENTS

### Northwest Region

- 1 Northrock Court (East) Street Repair
- 2 Northrock Court (West) Street Repair
- 3 Elevated Storage Tank 5 Maintenance
- 4 Ford Ave Street Repair
- 5 Ridge Ave Street Repair
- 6 Auburn Street Improvements (Water)
- 7 Auburn St Bridge (Phase 2)
- 8 Auburn Street Improvements (Phase 3)
- 9 School St Street Repair
- 10 Pierpont Ave and West State St Sidewalk
- 11 Water Main Replacement - Crusader Neighborhood
- 12 Horsman St Street Repair
- 13 Mulberry St Street Repair
- 14 Winnebago St Street Repair
- 15 Green St Street Repair
- 16 Short Horsman St Street Repair
- 17 Cedar St Bridge Replacement
- 18 Cedar St Street Repair
- 19 Well 45 Reservoir Reconstruction Phase 1
- 20 Tay St Reconstruction

### Northeast Region

- 21 East High Zone Elevated Tower Design
- 22 Highcrest Multi-Use Path
- 23 Maray Dr Street Repair
- 24 Strathmoor Dr Street Repair
- 25 Executive Parkway Street Repair
- 26 Trainer Rd Street Repair
- 27 Argus Drive Street Repair

### Southeast Region

- 28 City-Wide Traffic Signal Upgrade Program
- 29 East State St. Sidewalk
- 30 Charles St Bridige (Culvert)
- 31 15th Ave Street Repair
- 32 Broadway Street Repair
- 33 Alpine Rd & Newburg Rd Intersection Improvements
- 34 Newburg Rd Street Repair
- 35 20th St Street Repair
- 36 Alpine Rd Improvements (Reimagine Alpine)
- 37 Elevated Storage Tank 2 Maintenance

### Southwest Region

- 38 Well 46 Water Treatment Facility
- 39 8th St Street Repair
- 40 Grable St Street Repair
- 41 Mansfield St Street Repair
- 42 Hepburn St Street Repair
- 43 11th St (Phase 3 ) Street Repair
- 44 Harrison Ave (Kishwaukee to 9th St ) Street Repair
- 45 Water Main Replacement - Harrison Ave Phase 1
- 46 Harrison Ave (Rock River to Kishwaukee) Reconstruction
- 47 Falund St Street Repair
- 48 Harrison Ave Bridge
- 49 18th Ave Street Repair
- 50 15th Ave Bridge
- 51 Water Main Replacement - Corbin St Bridge
- 52 Corbin St Bridge
- 53 Curve St Street Repair
- 54 Winnebago St Bridge

### Central Region

- 55 Water Main Replacement - N. Church
- 56 Whitman St Bridge
- 57 Activate Church & Main (Two way conversion)
- 58 Water Main Replacement - Madison St Phase 2
- 59 Reconnecting Rockford (Interim Phase)
- 60 Madison St (Phase 2) Street Repair
- 61 Reconnecting Rockford (Ultimate Phase)
- 62 Court St Street Repair
- 63 Jefferson St Bridge
- 64 Downtown Streetscape Program (West State St)
- 65 Lower Jefferson Street Outlet Repair
- 66 Rockford Complete Streets Revitalization
- 67 Downtown Streetscape Program (Madison St)
- 68 Rockford Riverwalk
- 69 Charles St Street Repair
- 70 Kent St Street Repair
- 71 Rock River Seawall Repairs (East Bank)
- 72 1st St Bridge
- 73 2nd St Bridge
- 74 2nd Avenue Street Repair
- 75 Water Main Replacement - Lincoln Ave
- 76 Water Main Replacement - 8th Ave Bridge
- 77 8th Ave Bridge
- 78 11th St Bridge
- 79 KC Greenway FLD Mitigation (Churchill Park)
- 80 Buckbee St Street Repair
- 81 6th Street Two-Way Conversion
- 82 Water Main Replacement - 8th Street
- 83 9th St Two-Way Conversion
- 84 Water Main Replacement - 11th St Phase 2
- 85 11th St (Phase 2) Street Repair
- 86 18th Avenue Street Repair
- 87 Welty Ave Street Repair
- 88 Water Main Replacement - 15th Ave Bridge

# UPCOMING MAJOR PROJECTS

## ROCKFORD COMPLETE STREETS REVITALIZATION

<b>Category</b>	CED Program
<b>Funding Source</b>	RAISE, IDOT, MFT
<b>Estimated Project Cost</b>	\$22,400,000
<b>Current Project Phase</b>	Construction
<b>Completion Date</b>	2028

In partnership with IDOT, RMTD, and R1PC, the Rockford Complete Streets Revitalization project reallocates an existing vehicular travel lane for non-motorized traffic to accommodate the growing multi-modal needs of downtown to connect the various new developments in recent years. This partnership also provides accommodations for a circulator RMTD electric bus route around the downtown loop. The corridor will also be enhanced to the downtown streetscape standard, from West State Street to 7th Street.

## 11TH STREET IMPROVEMENTS

<b>Category</b>	Capital Roadway
<b>Funding Source</b>	Sales Tax, WRIA
<b>Estimated Project Cost</b>	\$26,000,000
<b>Current Project Phase</b>	Construction
<b>Completion Date</b>	Ph2- 2026, Ph3- 2027

The 11th Street Corridor is a main thoroughfare on the south side of Rockford with a high volume of traffic using this corridor as an entrance to the City. Using recommendations from the 11th Street Corridor Study, the City is moving forward with various improvements to the corridor including roadway resurfacing, sidewalk upgrades, decorative elements, safety improvements, and water main improvements. The project will be broken into 3 construction phases over the next 5 years.

# UPCOMING MAJOR PROJECTS

## 15TH AVENUE BRIDGE OVER ROCK RIVER

Category	Bridge Program
Funding Source	MFT, WRIA, State, Federal
Estimated Project Cost	\$20,000,000
Current Project Phase	Design Engineering
Completion Date	2028

The 15th Avenue Bridge over the Rock River substructure dates back to 1933 and is nearing its useful life. In order to proactively begin the process of replacing the structure, the City has received federal funding assistance through the Illinois Special Bridge Program. The current traffic volumes indicate that a three lane bridge section may be an adequate replacement. The preliminary engineering of the bridge began in FY 2020 in anticipation of construction beginning in FY 2028.

## 9TH STREET TWO WAY CONVERSION

Category	Community & Econ. Develop.
Funding Source	RBI, STBG, STATE, MFT
Estimated Project Cost	\$20,000,000
Current Project Phase	Design & Land Acquisition
Completion Date	2028

The structures and ramps of the current interchange at IL-251 & Whitman Streets are nearing the end of their lifetime. City is proposing to remove the ramps and bridge and convert 6th Street, 9th Street, and Longwood Street to two-way traffic. Additional benefits include: better access from the west side of Rockford to East State Street and SwedishAmerican Hospital, better bicycle/pedestrian access for the neighborhood from the east to the Rock River, and additional greenspace for development.

# UPCOMING MAJOR PROJECTS

## WELL 45 RESERVOIR RECONSTRUCTION

<b>Category</b>	Water - Production
<b>Funding Source</b>	IEPA SRF Loan, WRIA
<b>Estimated Project Cost</b>	\$15,000,000
<b>Current Project Phase</b>	Design
<b>Completion Date</b>	2026

Well 45 Reservoir Reconstruction is to replace the one hundred year old, five (5) million gallon water reservoir that is the largest in the central water pressure zone. This reservoir is vital to supporting the daily water and fire-fighting demands in this zone. This project will consist of demolishing the current reservoir as it has exhausted its useful life and reconstruct a new water reservoir in its place. This project will also include improvements to the existing operations center and parking area to enhance public access to the City's

## WEST JEFFERSON STREET WATER MAIN REPLACEMENT

<b>Category</b>	Water—Distribution
<b>Funding Source</b>	WRIA
<b>Estimated Project Cost</b>	\$2,500,000
<b>Current Project Phase</b>	Construction
<b>Completion Date</b>	2024

The West Jefferson Street water main replacement consists of an advanced replacement approach by lining and replacing portions of high-risk 24" water main installed in 1922. This approach will allow the City to replace this water main in an area with limited right-of-way space. This project consists of installing new water main, fire hydrants, valves, and water services. All lead water services found will be replaced with a new complete water service.

# UPCOMING MAJOR PROJECTS

## WELL 46 WATER TREATMENT PLANT

<b>Category</b>	<b>Water - Production</b>
<b>Funding Source</b>	<b>IEPA SRF Loan</b>
<b>Estimated Project Cost</b>	<b>\$12,000,000</b>
<b>Current Project Phase</b>	<b>Preliminary Engineering</b>
<b>Completion Date</b>	<b>2026</b>

The Well 46 treatment plant will replace Well 24, previously decommissioned, within the City's central hydraulic pressure zone. This site will be a vital site to the central hydraulic zone and the current and future development that is to occur. This project will include the construction of a new water treatment plant, installation of a filter vessel, reservoir, and associated pumping equipment. The City is currently drilling the new well on the property which will determine the design of the treatment facility. The City will look to utilize an

## LEAD SERVICE LINE REPLACEMENT

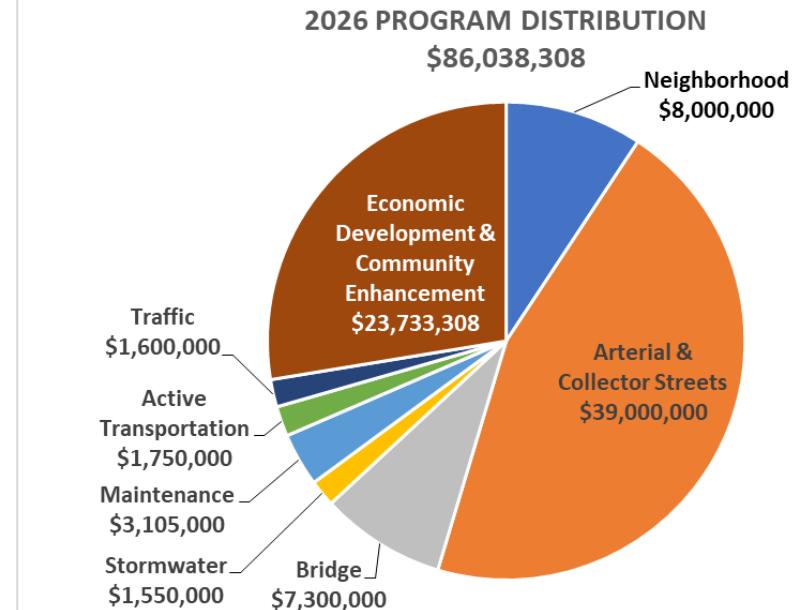

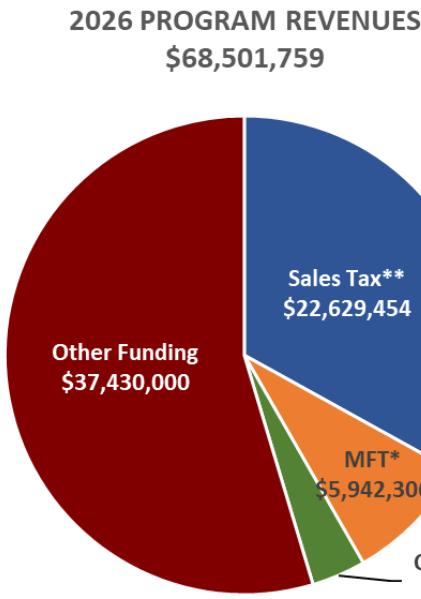

<b>Category</b>	<b>Water-Distribution</b>
<b>Funding Source</b>	<b>IEPA SRF Loan</b>
<b>Estimated Project Cost</b>	<b>\$4,000,000</b>
<b>Current Project Phase</b>	<b>Design &amp; Construction</b>
<b>Completion Date</b>	<b>Annual</b>

The Lead Service Line Replacement Program is an annual program to replace lead water service connections throughout the City. This program's replacement rate is based on Illinois State Law requirements and will remain in place until all lead service lines have been replaced. The estimated time frame for replacement of all lead service lines is approx. 30 years.

## NEIGHBORHOOD IMPROVEMENT PROGRAM

The Neighborhood Program provides funds for construction projects on the City's nearly 550 miles of residential streets and 1,121 alleys. Improvement projects through this Program have not been identified yet; City staff works with the respective Aldermen to identify the best uses of these funds. A detailed breakdown of each Ward allocation is found on the following page.

FUNDING SOURCE	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	TOTAL
<b>SALES TAX</b>	\$3,500,000	\$7,000,000	\$7,500,000	\$8,000,000	\$8,500,000	\$34,500,000

## CAPITAL ROADWAY IMPROVEMENT CHAPTER

The Capital Roadway Program provides funds for improvement projects on City's network of arterial, collector, commercial, and industrial streets. Funds are also used as the local match for State Highway and other corridor projects. Roads targeted for improvement are identified based on a variety of criteria such as traffic count, maintenance of truck routes, traffic safety, and route significance to the regional transportation system.

FUNDING SOURCE	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	TOTAL

## HIGHWAY & BRIDGE STRUCTURE REPAIR AND REPLACEMENT PROGRAM

The Highway and Bridge Structure Repair and Replacement Program provides funds for the repair and replacement of bridges and culverts throughout the City, for long-term maintenance on structures, and for federally-mandated inspections. Special consideration is given to improving structures that are currently posted with weight restrictions.

## SIDEWALK & ACTIVE TRANSPORTATION PROGRAM

The Sidewalk and Active Transportation Program provides funds for improving pedestrian accommodations throughout the City. The goals of the program are to improve the safety and mobility of pedestrians throughout the City by repairing or replacing damaged and deteriorated sidewalks, installing new intersection curb ramps at pedestrian crossings in accordance with current Americans with Disabilities Act standards, construction of new sidewalks in areas where gaps exist, and improving the City's multi-use path and trial system.

2026–2030

# WATER CAPITAL IMPROVEMENTS

# WATER PROGRAM CATEGORIES

The Water Division Capital Improvement Program focuses on maintaining safe, plentiful, and desirable drinking water for customers utilizing fund equity collected from customer billing as well as funding from the Illinois Environmental Protection Agency (IEPA). The Water Division's cost of service and rates will be evaluated to ensure continued, proactive investment in the aging water infrastructure. Capital improvements to storage facilities, treatment plants, and pumping stations is primarily driven by regulatory requirements, engineering inspections, water quality, and operations. Conversely, capital improvements in water main replacement and rehabilitation are carefully selected through the systematic evaluation of several factors including: water main age, main break history, condition of the overlying roadway and plans for reconstruction, importance in serving critical customers (i.e., hospitals, schools, nursing homes), and the improvement of system hydraulics for capacity needs and fire protection.

## Distribution System

The Distribution System category includes construction costs related to the maintenance and replacement of the Water Division's 816 miles of water main, 52,000 active service connections, 6,764 fire hydrants, and associated appurtenances. Maintenance activities and capital improvements are completed by internal staff as well as contracted out through water operations and/or water engineering. Water main replacement and system improvements are based on the Water Main High-Risk Model, various City projects needs, system expansion, and projects identified in the Water Infrastructure Improvement Program (WIIP) Project Manual.

## Ongoing

This category includes the replacement of lead service lines utilizing funds secured from the IEPA as well as the Water Division's capital program.

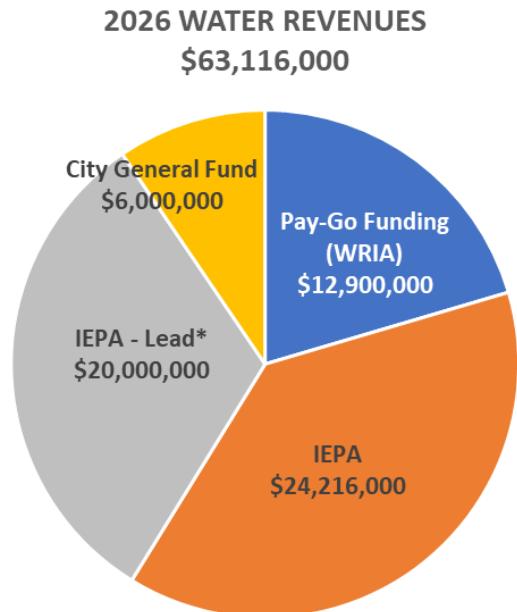

## Treatment and Pumping Facilities

This category provides funds for maintaining and improving the Water Division's 26 production wells, 25 pumping stations (including 13 treatment sites), 10 zone control valves, and associated appurtenances. Maintenance activities and capital improvements are completed by internal staff as well as contracted out through water operations and/or water engineering. Projects include production well rehabilitations, filter vessel maintenance, replacement and improvement of treatment plants and pumping stations in accordance with IEPA regulations.

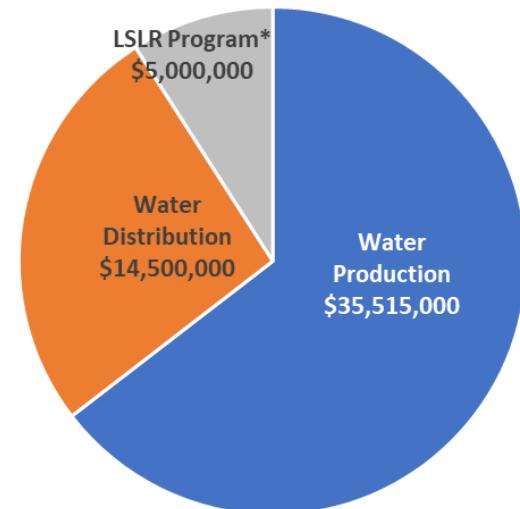

## Storage Facilities

This category includes projects associated with maintaining and replacing the Water Division's storage facilities system-wide including 25 reservoirs and two water towers.

2026	WATER DISTRIBUTION SYSTEM REPLACEMENT & IMPROVEMENT	SYSTEM WIDE	1,000,000	1,000,000			Includes construction, material and engineering costs for capital improvements completed by Water Staff and/or contracted out through water operations.	2026	2026
	COMMERCIAL WATER METER REPLACEMENT	SYSTEM WIDE	2,500,000			2,500,000	This project will replace end of life commercial water meters throughout the water system. This includes all construction, supplies, project management.	2026	2026
	CITY WIDE WATER MAIN REPLACEMENT	PLANNED PROJECTS: SEE LARGER PROJECTS LISTED BELOW	-	-			Water main replacement that will be replaced based on the High Risk Analysis, various City project needs, and identified projects from the WIIP book.	2026	2026
	MADISON STREET WATER MAIN REPLACEMENT PHASE 2	PRAIRIE ST	Y BLVD	2,000,000		2,000,000	This high risk water main is to be replaced as part of the Madison Street road improvement project. See capital roadway improvement program for improvements and cost information.	2026	2026
	AUBURN STREET IMPROVEMENTS	CENTRAL AVE	N MAIN STREET	6,000,000		6,000,000	Includes replacement of 94 year old high risk water main, lead water services, fire hydrants, valves. Includes Construction and construction Engineering. See capital roadway improvement program for improvements and cost information	2025	2026
	11TH ST WATER MAIN REPLACEMENT PH2	18TH AVE	CHARLES ST	3,000,000	3,000,000		This will be a phased project that replaces undersized high risk water main and will be in partnership with the 11th Street Corridor road improvements. See capital roadway improvement program for improvements and cost information.	2026	2026
	TOTAL 2026 WATER DISTRIBUTION CAPITAL IMPROVEMENTS		14,500,000	4,000,000	-	10,500,000			
2027	WATER DISTRIBUTION SYSTEM REPLACEMENT & IMPROVEMENT	SYSTEM WIDE	1,000,000	1,000,000			Includes construction, material and engineering costs for capital improvements completed by Water Staff and/or contracted out through water operations.	2027	2027
	COMMERCIAL WATER METER REPLACEMENT	SYSTEM WIDE	2,500,000			2,500,000	This project will replace end of life commercial water meters throughout the water system. This includes all construction, supplies, project management.	2027	2027
	CITY WIDE WATER MAIN REPLACEMENT	PLANNED PROJECTS: 8TH AVE BRIDGE WM REPLACEMENT N CHURCH FROM LOCUST TO WHITMAN WM REPLACEMENT	5,000,000	5,000,000			Water main replacement that will be replaced based on the High Risk Analysis, various City project needs, and identified projects from the WIIP book.	2027	2027
	TOTAL 2027 WATER DISTRIBUTION CAPITAL IMPROVEMENTS		8,500,000	6,000,000	-	2,500,000
